Everything changes when I make the mistake of saving a sexy knight of the mage council from a magical attack. Not only am I revealed to the council, but when a high-ranking member of the council is poisoned, and no magical treatment is effective, I'm called upon to figure out what happened and how to save him. Now I'm caught up in a magical plot beyond my abilities. Survival requires I use the dark magic flowing within me, but can I do it and avoid detection? And can I learn why my magic is so different than others with dark magic?
